SUMMARY

Data Science graduate with hands-on experience in AI-powered tools, web development, and data analytics. Proficient in Python, SQL, and data visualization. Built impactful projects like a smart timetable generator app. Eager to apply data-driven solutions in software, analytics, or web development roles.

EDUCATION

- **Master of Science in Data Science (Pursuing)** 2024 – 2026
Nehru Arts & Science College, Coimbatore
- **Bachelor of Science in Information Technology** 2021 – 2024
Nehru Arts & Science College, Coimbatore CGPA: 7.70

INTERNSHIP

- **Data Science Intern** Mar 2025
Christ Infotech — Pune
 - Built a YOLO-based Solar Panel Anomaly Detection system to identify defects such as cracks, hotspots, and soiling from high-resolution aerial images.
 - Processed and annotated 1,200+ solar panel images, applying image preprocessing and data augmentation pipelines to improve detection accuracy.
 - Enhanced model reliability by analyzing false positives/negatives, refining bounding box annotations, and optimizing detection thresholds for real-time inference.
 - Technologies : Python, YOLO (v5/v8), OpenCV, NumPy, Pandas, Computer Vision, Image Annotation, Data Augmentation

PERSONAL PROJECTS

- **Smart Timetable Generator – Web Application**
Developed an automated timetable generation platform using React and Firebase
 - Architected a smart scheduling system that automatically generates conflict-free timetables based on class schedules, subject requirements, and teacher availability, reducing manual scheduling effort by 70%.
 - Designed and implemented rule-based scheduling logic to handle constraints such as teacher workload, class hours, and subject distribution, improving timetable accuracy and efficiency by 60%.
 - Technologies : React, Firebase (Firestore), JavaScript, HTML/CSS, Scheduling Algorithms, Data Validation

TECHNICAL SKILLS

Programming: Python, SQL, HTML, CSS
Frameworks: React.js
Tools: Git, GitHub, VS Code, Jupyter Notebook, Power BI
Data Analytics: Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA)
Interests: AI Products, Data Analytics, Web Development

CERTIFICATIONS

- **DeepLearning AI – Computer Vision Specialization** May 2025
Coursera
- **Data Science and Analytics** Apr 2025
HP Life and Foundation
- **Career Essentials in Data Analysis** May 2025
Microsoft & LinkedIn Learning
- **App Development with Flutter** Dec 2025
Metatron Cube Solutions
